*R. Samuel
McLaughlin
Addiction and
Mental Health
Information
Centre*

If you need someone to talk to about mental health or addiction problems, or just have a question, we can help. Simply pick up the phone, your mouse or drop by our location in Toronto.

Real people with reliable answers. Totally confidential. Sometimes knowing *who* to ask for help is hard. Now finding *where* to ask isn't.

The R. Samuel McLaughlin Addiction and Mental Health Information Centre provides:

Up-to-date information on mental health and addiction problems, trends, facts, programs, treatments, and prevention strategies through a toll-free Information and Support Line, a Web site, recorded messages and storefront.

Confidential and anonymous telephone support.

Our recorded messages span a wide range of topics, including:

- *facts on mental health, alcohol and drugs*
- *information guides*
- *help for families.*

Information about prevention, support and treatment resources in Ontario.

Centre for Addiction and Mental Health
Centre de toxicomanie et de santé mentale

There *is* help. There *is* hope.

Information is available in English and French.
Some services are available in a variety of other languages.

Dear Readers,

The Centre for Addiction and Mental Health is pleased and proud to present this series of five stories in photographs. Published in English and French, these stories illustrate the most common problems associated with drinking, problem gambling, depression, drugs, and post-traumatic stress disorder.

To identify the needs of our ethnic communities, the Centre for Addiction and Mental Health conducted consultations with various community groups. The message that emerged clearly from these consultations was that there is lack of knowledge about substance use and mental health problems and about the services that are available to address them. The consultations also revealed that access to services was difficult or lacking.

We hope that these stories will help to inform, and raise awareness in, the ethnic communities and promote a better understanding of, and more caring response to, people dealing with mental health or substance use problems. We also hope that these stories will provide support to the families and loved ones of people who are dealing with these problems.

We are grateful to our community partners and to members of these communities who gave so generously of themselves during the consultations.

We also thank the Ontario Region Settlement Branch of Citizenship and Immigration Canada, which generously funded for this project.

Lastly, we hope that in reading these stories, members of our ethnic communities will use the services that are offered, make informed choices, and dispel the prejudices and taboos surrounding mental health and substance use.

Antoine Dérose
Project Manager
Centre for Addiction and Mental Health
Telephone: 416 535-8501, Extension 6904
E-mail: Antoine_derose@camh.net

ACKNOWLEDGMENT

The project's advisory committee would like to express its immense gratitude to the many people and organizations who have contributed their thoughts and experience to make this project a success. We thank them for their commitment, effort and support. We are also indebted to the individuals, service providers and members of agencies who have actively participated in the development of this product.

Special thanks to all CAMH staff, including clinicians and other professionals who reviewed early versions of the scripts and storyboards and provided invaluable assistance and advice.

ELEMENTARY SCHOOL

HEY CARLOS,
ARE YOU
LOST?

I'LL TAKE YOU
BACK TO CLASS.

OUTSIDE THE
CLASSROOM.

GET LOST! I
WAS HERE
FIRST!

LEAVE ME ALONE!
IT'S THE SEAT
NEAR THE DOOR!
IT'S MINE!

CLASS, I'D LIKE YOU
TO MEET CARLOS. HE'S
NEW HERE. I'D LIKE YOU
TO PLEASE WELCOME
HIM AND HELP HIM IF HE
NEEDS IT.

ALL RIGHT, GO
AND SIT DOWN.

BEFORE WE GET
STARTED, THERE'S
GOING TO BE A
FIRE DRILL THIS
MORNING.

ALARM BELL SOUNDS

SCHOOL WASHROOM,
CARLOS TRIES TO HIDE.

SOMETIME LATER

HELLO? IS
ANYONE IN
HERE?

HEY, LITTLE
GUY! WHAT'S
GOING ON?

ARE YOU OK? I'M NOT
GOING TO HURT YOU. MY
NAME IS NOELLA. I TAKE
CARE OF THE CLEANING.
COME HERE, DID THE NOISES
SCARE YOU?

THERE, THERE.
CALM DOWN.
IT'S GOING TO
BE ALL RIGHT...

DO YOU WANT TO
TELL ME WHAT
HAPPENED?
WHAT'S YOUR
NAME?

CARLOS.

I'M SCARED. I
WANT TO GO
HOME. I WANT
MY MOM.

WHAT ARE YOU
SCARED OF?

WHERE I'M FROM, THERE ARE
SOLDIERS EVERYWHERE. IN
THE VILLAGE, A BELL RINGS TO
GIVE US A WARNING. I DON'T
WANT TO HEAR BELLS ANY
MORE. I'M SCARED...

YOU'RE SAFE HERE. THIS SCHOOL
WON'T PUT YOU IN DANGER.
WHAT YOU HEARD JUST A WHILE
AGO WAS A FIRE DRILL.

WE DO THAT REGULARLY TO TEST
THE ALARM SYSTEM AND TRAIN THE
STUDENTS AND STAFF TO REACT
PROPERLY. I PROMISE YOU THAT
YOU HAVE NOTHING TO BE AFRAID
OF HERE. DO YOU BELIEVE ME?

OUTSIDE THE WASHROOM, CARLOS
BUMPS INTO A CLASSMATE.

CARLOS!
WHERE DID YOU
GO?

WE WERE
WORRIED
ABOUT YOU,
YOU KNOW!

WE LOOKED
EVERYWHERE.

CARLOS AND
CLASSMATES ENTER.

YOU'D BETTER GET
GOING. WE'LL TALK
TO YOUR TEACHER
AFTER CLASS.

YOU MISSED A LOT
IN CLASS. MR. DAVID
SHOWED US SLIDES
OF DIFFERENT
COUNTRIES AROUND
THE WORLD. WE SAW
WHAT THEY LOOK
LIKE, WHAT THEY
PRODUCE. COME ON,
WE'LL FILL YOU IN.

THANKS,
NOELLA, BYE!

SEVERAL MONTHS HAVE PASSED.
A NEW BUILDING IS BEING BUILT
ACROSS THE STREET FROM THE
SCHOOL.

PASS THE BALL
CARLOS!

A TRUCK SQUEALS ITS TIRES
WHILE BRAKING

AT THE SAME TIME IT
RELEASES ITS LOAD WITH A
LOUD NOISE.

ARE YOU
OKAY,
CARLOS?

YOU KNOW IT WAS NOTHING. A TRUCK WAS DUMPING ITS LOAD. IT HAPPENS ALL THE TIME ON THE CONSTRUCTION SITE. NOTHING TO WORRY ABOUT.

THE STUDENTS SMILE.

NO, THAT'S RIGHT!

YOU JUMPED AS WELL, KHALID.

THAT'S RIGHT! I AM VERY JUMPY. TWO YEARS AGO I WAS IN A CAR ACCIDENT WITH MY PARENTS. I STILL DON'T LIKE THAT KIND OF NOISE.

MY PASTOR SAYS THAT IT'S OK TO GET NERVOUS AS LONG AS I KEEP TALKING ABOUT IT.

LET'S GET BACK TO THE GAME!

WHAT IS POST-TRAUMATIC STRESS DISORDER (PTSD)?

Post-traumatic stress disorder (PTSD) is an anxiety disorder. It affects people who have gone through trauma. Trauma is a terrifying event in which grave physical harm occurred or was threatened, and the person feels intense fear, helplessness or horror. The events that can trigger PTSD include domestic abuse, violent crime, rape, car or airplane accidents, terrorist bombings, war, genocide, earthquakes or other disasters.

HOW COMMON IS PTSD?

PTSD affects between two per cent and five per cent of the population. It was once thought to be mainly a disorder of war veterans who had been involved in heavy combat. But researchers now know that PTSD also affects both female and male civilians. About twice as many women as men suffer from PTSD after a trauma. PTSD can develop at any age, including childhood.

SYMPTOMS OF PTSD

The symptoms of PTSD usually appear within three months of the traumatic event, but sometimes they do not begin until years later. The symptoms include:

- difficulty falling or staying asleep
- unwanted thoughts, memories, images or dreams about the event
- acting and feeling as if the traumatic event is happening again
- extreme vigilance – feeling watchful all the time and being easily startled
- extreme distress when something reminds the person of the event (reminders or “cues” might be thoughts, feelings, situations, people, activities, or things that the person associates with the trauma)
- avoiding cues associated with the trauma
- emotional numbness and withdrawal; losing interest or not taking part in the important activities of life
- feelings of guilt
- memory problems and poor concentration
- anxiety, irritability or outbursts of anger
- sadness, spontaneous crying, a sense of despair and hopelessness.

CAN PTSD BE TREATED?

In some cases the symptoms of PTSD disappear with time. In others, they go on for many years. PTSD often occurs with – or leads to – other psychiatric illnesses, such as depression, or substance use problems.

Not everyone who goes through a trauma needs treatment. Some people recover from PTSD with the help of family, friends and support from their faith community.

However, there are effective medical treatments for people with PTSD who need them. These treatments include medications for depression and special types of psychotherapy, including cognitive behavioural therapy and exposure therapy.

WHERE TO GET HELP

Here are some places you can contact if you or someone you know needs help with post-traumatic stress disorder:

Centre for Addiction and Mental Health

Toronto: 416 535-8501
